**MARRIAGE TIP:** We live in a time of digital distractions: have you set boundaries around how you will prevent smartphones, tablets and other devices from impacting your life? Their interference has become so prevalent that researchers now have a term to describe it, “technofence,” and it is real. How can you take control and decrease the negative impact: limit the amount of time you spend on and checking devices; make rules about digital use during time together; agree on when devices will be prohibited (at meals, on a date, in bed) and stick to it. Disconnect from your devices, not your relationship, and you’ll both be happier!
